- English : R,W,S
- Tamil : R,W,S

### PROFILE

I am a dedicated software developer with expertise in frontend development. I have 6 months of experience in frontend development and am currently doing an apprenticeship in backend development at Vizweb Solutions. I hold a MERN Stack certification from Profenaa Technologies and am building my skills in Node.js, Express, and MongoDB to enhance my full-stack abilities.

### WORK EXPERIENCE

#### Front-end Developer

2024(May) - present

#### Vizwebsolutions

- Maintained and enhanced website functionality, handling full project lifecycles for new pages, from concept to deployment, ensuring high standards in design and performance.
- Managed time-sensitive updates, including content and feature upgrades, to keep the website current and aligned with client requirements.
- Collaborated with back-end developers during a hands-on apprenticeship, gaining expertise in server-side technologies and optimizing data handling to improve front-end performance.
- Boosted front-end performance by 100% through batch processing techniques, significantly improving load times and user experience.
- Developed over 10 front-end applications using HTML, CSS, JavaScript, and Bootstrap, transforming visual concepts into fully functional, responsive interfaces.
- Implemented SEO best practices, including keyword integration and meta-tag optimization, leading to a 30% increase in organic search visibility within six months.

### Projects

- Start up Website** : [vizwebsolutions.com](http://vizwebsolutions.com)  
**Description:** Developed a responsive and interactive startup website using HTML, CSS, and JavaScript to boost user engagement and functionality.
- Training Institute Website** : [besttraininginstitute.co.in](http://besttraininginstitute.co.in)  
**Description:** Created a responsive and interactive website for a training institute using HTML, CSS, and JavaScript to enhance user engagement and accessibility.
- Sanitary Wear Website** : [legrey.in](http://legrey.in)  
**Description:** Front end developed by me using HTML, CSS, Bootstrap, and JavaScript to ensure a responsive and user-friendly experience. Back end created by a back-end developer using PHP and MySQL.
- Clothing Website**: [sripada.netlify.app](http://sripada.netlify.app)  
**Description:** Built a responsive and visually appealing front end using HTML, CSS, and JavaScript to showcase clothing products effectively and enhance user experience.
- Mini chat AI** : <https://arun-19n.github.io/Chat-Ai-demo/>  
**Description:** Developed an interactive chat application using React and integrated the Gemini API to enable real-time, AI-powered responses, enhancing user interaction and engagement.  
**Technologies Used:** React, Gemini API
